## Welcome

Dusted off the equipment and got back to the ground for the pre-season trials.

As expected the action was fierce with plenty to capture including our cover shot of Wally grabbing some air time with support of his teammates.

The weather can sometimes make life challenging but if you're lucky (and get into position quick enough) it can help provide a more interesting background to enhance your photo.

Hope you enjoy this edition.

Cheers,

## In this edition INSIDE 50 catches up with Maitland Saints captain and ten year club veteran Riley Newstead.

### What attracted you to AFL?

My family (mum's side) have always been into Aussie Rules and my uncle played for the Swans.

### What position do you play? And what best describes it?

Have always played midfield, predominately inside. But, I am moving to half back this year and may rotate through midfield occasionally. My position is best described by lots of running and being committed to switching between attacking and defending.

### Tell me about your fondest memory of playing AFL for the Maitland Saints?

Winning the comp in 2017 and kicking the winning goal to get my first win as captain in my 5th senior game.

### What advice could you give to a junior player on the transition to senior football?

Give it a try, even if you are not sure if you want to play senior footy come for a run. All juniors are welcome to come and try seniors when they hit U17 age group. Also, I can speak from personal experience as a junior that came through into the seniors, the group is very welcoming, helpful and really want to improve everyone that joins in each session and see the whole club succeed.

### What brand of football boots do you wear?

Currently wearing NIKE, but my selection criteria for boots is all black.

### Tell us something that your team mates don't know about you?

I cannot watch scary movies
